RE: Georgia Roofing and Metal

To Whom It May Concern,

I have been doing business with Georgia Roofing and Metal Co. for over 35 years. I began working with Marshall Bramlett and am now dealing with the second generation of Bramletts(sons Don and Mark). They have provided the installation and complete roof/gutter services on our three commercial warehouses and also on my personal residence.

The workmanship of Georgia Roofing has been excellent. The company is reliable and does what it promises. They have always provided quick responsive action for any of my concerns. I wholeheartedly endorse and recommend the services of Georgia Roofing and Metal Co.

Sincerely,

Ronald Cohen
President
