Don,

Below please find my vote of confidence in you and Georgia Roofing and Metal Company. Please feel free to give out my business number for anyone that would like to talk with me prior to making a decision on a roofing Company. I wish you all the best. Thanks for thinking of me.

I actually met Marshall and Don Bramlett the father and son Co- Owners of Georgia Roofing and Metal Company in 1986. They proved to be the most trustworthy roofers I have ever met. They are reliable, honest, clean cut and is a hard workers. More importantly, they have always stood behind their work. They are quick to follow back up with you if you have a questions or a concerns with your roof before, after or during your roof work. Georgia Roofing and Metal Company employs workers with the same mindset and mission.

Georgia Roofing and Metal Company has done many commercial jobs for me over the years. I am in Commercial Real Estate in the Atlanta area. Georgia Roofing and Metal Company has roofed warehouses, office buildings as well as two of my own personal homes. In addition, over the years, I have referred Georgia Roofing & Metal Company to many of my friends to have their own homes roofed. They were pleased with the professionalism and hard work ethic shown by Don and his co-workers and even referred them to others.

Don his brother Mark and now Don's son Donnie all grew up in the roofing business started by Marshall Bramlett in 1960. Now that Marshall has a lesser role in the daily operation. Mark and Donnie have taken over his duties with the same enthusiasm and integrity. I would recommend Georgia Roofing and Metal Company for small repairs, small or large residential and commercial jobs.

Ask Georgia Roofing and Metal Company for my number. I would be happy to speak with you personally before you choose your next repair or installation of your roof. I look forward to speaking with you soon.
